Profile

Experienced front-end software engineer with proven ability to work in fast-paced environments and collaborate with cross-functional teams to deliver high-quality products within tight deadlines. Strong problem-solving skills and a passion for exploring new technologies.

Professional Experience

2021/10 – present
Remote

Software Engineer I

Auzmor

- Worked as a front-end engineer in the development of a Learning Management Solution (LMS): Auzmor Learn
- Led the implementation of various releases like Branding, Two-Factor Authentication, Social Learning
- Received the Most Valuable Performer (MVP) award in recognition of my exceptional performance
- **Tech Stack:** React, React Context, styled-components, Semantic UI

2020/12 – 2021/10
Remote

Programmer Analyst Trainee

Cognizant

- Trained in Java Full Stack development

Projects

Auzmor Learn: Website

Learning Management Solution (LMS)

- Worked on a release of the Auzmor Learn platform that allowed customers to customize the primary and secondary color, favicon, logo, login screen layout, and login banner for the platform
- Implemented email-based OTP and Authenticator app-based two-factor authentication for enhanced security
- Designed and developed an in-house forum for interaction in the Auzmor Learn platform

Realtime Service

- Designed and developed a standalone service for pushing real-time updates using web sockets
- Built the service to support Auzmor Learn's forum activity for realtime update
